### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The errors in English idiom noted in the previous Office action have been corrected or reduced in a manner that allows the application to be easily understood by one of ordinary skill in the art.

In particular, the phrases that were critically to the understanding of the invention such as "latest page" or "cross a page" have been corrected.

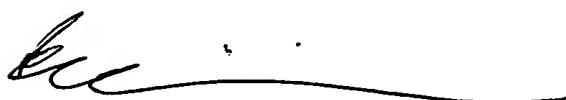

With regard to the "page cache block", a thorough search of patent and non-patent literature has determined that this is not an ordinary term of art. In fact, applicant has admitted on page 8 of the remarks that this represents a limitation that is introduced by applicant. As such, the scope of the claims that include this feature (including both independent claims) is limited to the definition provided for "page cache block" in applicant's disclosure. Furthermore, the claims themselves support this definition, namely a block that is pre-dedicated to storing remaining data of a size of less than one block from a unit of data that is larger than one block but is not an exact multiple of block sizes. In other words, the claimed page cache block is designed to store ONLY leftover data from a large write operation that does not fill an entire block. Although the references cited herewith are particularly relevant to applicant's field of endeavor, re-dedicating a memory location in such a manner as described above was neither taught nor suggested by the cited references either alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Peikari whose telephone number is (571) 272-4185.
